ELT-4320 LED Light Tower

metrolite

Nimble and compact, the new octagonal-shaped ELT-4320 LED Light Tower is ready to illuminate your jobsite.

Thanks to the ELT-4320 LED Light Tower’s special sockets, this light tower can be connected in a series up to 5 units. With a height of 7 meters and 4 x 320W LED lights, this nimble light tower brings brilliant illumination to your job site for little cost. This compact light tower has 28 units per container, and has a low weight that makes it easy to move and transport.

Features:

- Lighting tower without internal generator, manual lifting system included
- Connectable by network supply or generator, and can be connected in a series up to 5 units
- 1 single-phase socket 120V and 20A.
- Trolley fitted out with 2 wheels and 2 retractable handles
- Forklift pockets and hooks.
- On-Off switch for lamps.
- Epoxy powder coated structure is suitable for outdoor applications
