

Flap Disc, 4-1/2" x 7/8, A-COOL SG INOX+ALU, 60 Grit, T27, Flat, Aluminum oxide

Flap Disc, 4-1/2" x 7/8, A-COOL SG INOX+ALU, 60 Grit, T27,
Flat, Aluminum oxide

EDP: 62362

Item number: 67656115

EAN: 4007220222744

The wide range Performance Line SG offers high-performance solutions for every application and material. Performance Line SG products achieve optimum results with excellent economic efficiency.

POLIFAN flap disc with particularly cool grinding on materials with poor thermal conduction such as stainless steel (INOX) and aluminum.

Technical information

Item number ⓘ	67656115
Abrasive	A-COOL
Dia. external	4-1/2 Inch
Dia. hole	7/8 Inch
EDP no.	62362
Grit size	60
Max. RPM	13300 RPM
Mounting system	center hole
Shape	PFF / A / T27

Advantages

- ✓ Less heat build-up in the workpiece compared with other flap discs.
- ✓ Special top-sized abrasive material prevents loading on soft metals such as aluminum.

Recommendations for use

- ✓ Use only grit sizes 40 and 60 for aluminum.

Workpiece materials

- ✓ Aluminum
 - ✓ Other non-ferrous metals
 - ✓ Stainless steel (INOX)
-

Applications

- ✓ Chamfering
 - ✓ Deburring
 - ✓ Step-by-step fine grinding
 - ✓ Surface grinding
 - ✓ Work on weld seams
-

Compatible power tools

- ✓ Angle grinder
 - ✓ Drive spindle
