

Campbell Swivel Hoist Hooks have been redesigned from the ground up to offer the latest in durability and ease of use. A new heavy-duty latch and spring assembly features extra-thick steel construction, a double-strength spring, and a stainless steel latch bolt — all mounted on dual forged support bosses — providing the toughest swivel hoist hook Campbell has ever made. That's Campbell Confidence at work.

- Heavy-gauge high strength steel latch with reinforcing rib for ultimate rigidity and bending resistance
- Double-strength spring holds latch firmly against hook to securely retain slings and hardware
- Integrated forged bosses provide lateral support for positive latch/hook alignment and engagement
- Latch features yellow chromate finish, providing optimal corrosion resistance
- Latch marking forged into hook for easy replacement ordering
- Carbon steel hooks are painted blue; alloy hooks are painted orange
- Design factor: 5 to 1
- Meets or exceeds the requirements of ASME B30.10

## Swivel Hoist Hooks

| Trade Size | Catalog No. Latched | Catalog No. Regular | Material     | Working Load Limit (Short Ton) | Replacement Latch No. | Latch Marking |
