

TS-255 PRO ABV

Vac Pump P/N: DR0068
No Vac Pump P/N: DR0069

New Improved HD model updated electronics. This compact and powerful little drill will become your favorite tool in your truck or rental fleet. Capable of drilling holes up to 12" all day, with plenty of torque to spare, The TS-255 only need a 20Amp outlet, Great for residential and rental use.

fully compatible with the Shibuya Auto Feed System for large jobs where you need one operator to run mutual drills at the same time,

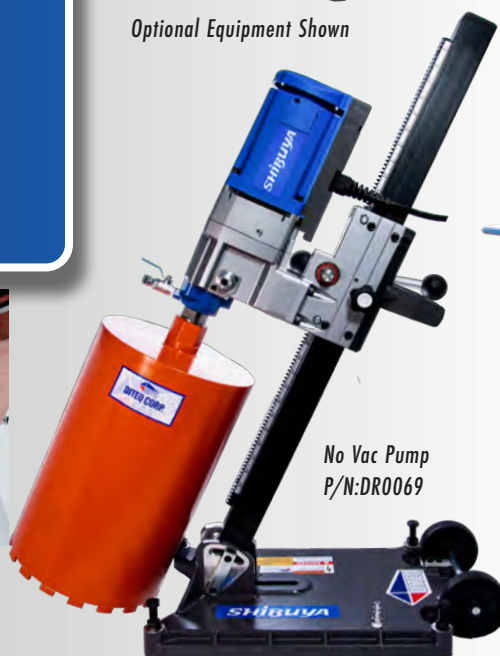

Works with the Vacuum Pad & Pump for anchor free use. With its 2-Speeds 450/950 RPM small diameter bits have plenty of speed. And the larger bits have all the torque they need.

The Feed handle works on both the right and left side of the carriage for tight workspaces. clutch adjustments are done without disassembly, Roller carriage for smooth and precise drilling.
