The Highest Quality Tool Belts in the World

The Occidental Difference

Since 1980, Occidental Leather® has set the quality standard for the tool belt industry - and has earned the reputation of having no equal. Compare any tool belt to an Occidental system and you will instantly see the difference.

- With 40+ years of field tested designs, you can be assured that you're purchasing the most unique and hardest-working tool systems in the business.
- Our designs provide *intuitive* "hand specific" tool holder organization designed to improve working rhythm on the job.
- Integrity is the foundation of our business. Respect for our employees, customers and suppliers has always been foremost as we conduct business.
- We use the highest quality American made materials available. Each product is designed and hand crafted by artisans in Sonoma County, California since 1980.

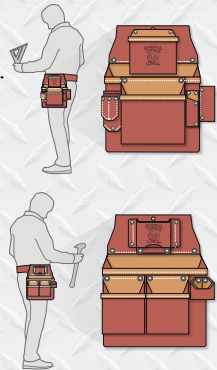

What Hand Specific Design Means To You

Hand specific tool holders promote maximum working rhythm and on-the-job efficiency. Designed by carpenters for carpenters.

Fastener Bags (Worn on the **left**) hold the fasteners and tools most often accessed with the **left hand** such as nails, tri-square, nail sets, cat's paw, driver bits, rafter square.

Tool Bags (Worn on the **right**) have multiple tool-holders for the tools most often accessed with the **right hand** such as hammer, pencils, utility knife, and chisels.

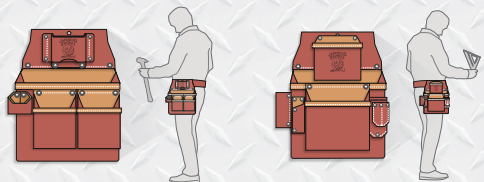

The examples above are specific to **right-handed individuals**.

Left-Handed Builders

Left-handed carpenters should look for the **LH** symbol. - This designates products which are available in left-handed versions (see our website for images of all of our left handed models).

In left handed sets, the tool bag is therefore worn on the left side and the fastener bag is worn on the right side.

Left-Handed Carpenter

PRO LEATHER SETS

Sides of System

Total Freedom
Of Movement

Even Weight Distribution

Function Engineered
For The Way You Work

Hand-Specific
Tool Placement

This Beltless™ System combines the unrivaled comfort, stability, and load distribution of our 5055 Suspension System with our traditional all-leather bag designs.

Not only is this the most comfortable framing rig you will ever wear, it is function engineered to move with you and securely hold your tools.

Experience greater range of motion, balanced tool carrying capacity, and lower back relief through freedom from a tool belt. Sleeves on suspension system accept a wide variety of clip-on tool holders and accessories.

Fully adjustable - The big & tall builder (over 6'2") may need our Suspender Extensions kit 5044 for proper fit.

Weight: **6.8 lb.**

www.OccidentalLeather.com
for our full line of suspension
system upgrades and accessories.

STRONGHOLD® SUSPENDAVEST™ SYSTEM

2500 - Stronghold® SuspendaVest™

The 2500 allows the flexibility to build your own “belt free” system using bags of your choice. Loaded with features and enough tool holders to do most jobs even without bags! 17 pockets and holders for all commonly used tools including plenty of storage for cell phone, note pads, calculator, etc.

The leather belting strap disconnects at the rear to accept most bags that fit a 3" belt. *(does not accommodate the 5525 or B5611 bags.)*

Create a custom rig to fit your specific work habits and needs. Features a “D” ring for hanging storage!

Nylon suspension vest with torso worn tool holders, eliminates clutter, maximizes comfort and efficiency. Remove your bags from the SuspendaVest™ for finish work or use in tight spots. Wear your bags on your tool belt when desired.

Available for lefties in  option.

Weight: 6.6 lb.

Customizable System !

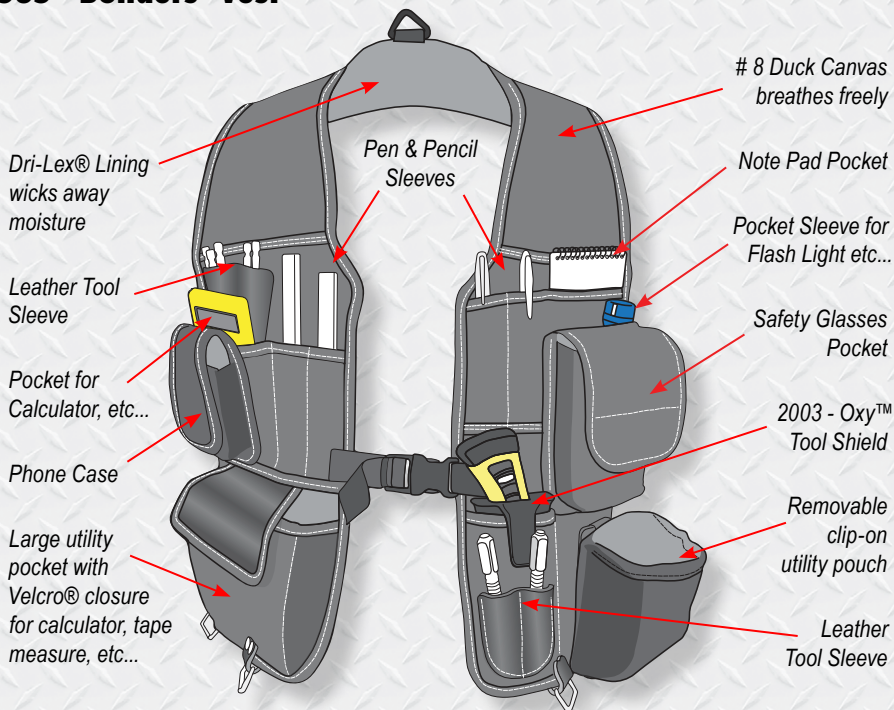

2580 - SuspendaVest™ OxyLight™ Package

The above vest with the B8o64 (4 pouch Fastener bag) and the B8or7DB (Tool bag). You may remove your bags from the SuspendaVest™ for finish work or work in tight spaces. Give your body a break, alternate with this belt free system.

BUILDERS' VEST™ SYSTEM

2535 - Builders' Vest™

Compact vest tool carrying system, loaded with tool holders and pockets. Can be worn as an independent vest tool carry system or with optional clip-on bags.

Ideal organization; ergonomic design, even load distribution, and total freedom of movement. Sixteen holders and pockets plus a removable pouch. Supplied with one 2003 Pocket Shield™ (for sharp knife or chisel)! Weight: 2.75 lb.

Complete Tool Organization for Woodworkers and Builders

Fully Adjustable Straps

Hardware for Optional Tool Holder Attachment

Removable Clip-on Hammer Holder

2585 Builders' Vest™ Framers Package

Adding our most popular style nylon bags (in a clip-on version) results in a very comfortable and functional Framers package.

2575 - Oxy™ Pro Work Vest

Maximum Comfort

Carry tools and equipment with equal weight distribution. Lessen fatigue and help prevent lower back pain!

Security Pocket with Leather Flap for safety glasses and more.

Bonus! - 2 Oxy Tool Shields™ (2003 - Included) Safely holds sharp tools. Extra protection for your tools, bags, and body!

Functional Organization

The wide shoulder, open-back design promotes air flow and has 28 pockets and tool holders.

Fully Adjustable

2 Upper Pouches
For fasteners or tools.

Modular System

For clip-on accessories

Roomy Integrated Cargo Pockets for fasteners feature 5 attachment points, for optional clip-on accessories.

A great alternative system for all trades, and better than an apron. Intuitive pockets for rafter square, gloves, tape, pencils, small notebooks, and a torpedo level!

Great attention is paid to the details to insure years of hard wear. Stress points, edges and pockets are all reinforced. This versatile design has passed every field test and promotes smooth working rhythm on the job.

Available for lefties in **LH** option as 2575LH.

Weight: 2.85 lb.

Suitable for finish carpenters, electricians, plumbers, cabinetmakers, maintenance technicians, and home hobbyists.

Triangle "D" at Center Back for Easy Hang-up Storage

5012 - Hammer Holder

Our most popular hammer holder! The steel hammer ring is sandwiched between two layers of premium extra thick leather for comfort and years of durable service.

5059 - High Mount Hammer Holder

Made of our highest quality Belting Leather, this hammer holder is compact and very comfortable.

5014 - Universal Holster

Open bottom holster, for squares, pliers, side cutters, tin snips, large crescent wrenches, etc.

2 1/4" x 6"

9501 - Clip-On Pouch

Single clip-on bags make it easy to switch to different applications. Keep them fully loaded and neatly lined up in your truck or clipped to your toolbox when not in use.

5" x 4.5"

5518 - No Slap Hammer Holster

All leather hammer/tool holder with a long sleeve design to prevent tools and handles from swinging and "knee-capping". Also accommodates hammer tackers and flat bars up to 1 5/8" diameter.

OCCIDENTAL ACCESSORIES

5520 - 5-in-1 Tool Holder

5-in-1 holder provides 5 times the tool capacity in the belt space of one holder. Designed for professionals and weekend warriors. May be worn on any belt up to 3" wide. Sturdy American leather and included Oxy™ Tool Shield ensures years of endurance in the field.

5020 - 2-in-1 Tool & Hammer Holster

This rugged 2-in-1 holder offers twice the tool capacity in the belt space of one item. Designed for professionals and weekend warriors. Add it to your tool belt or use alone. High quality leather ensures years of endurance in the field.

2003 - Oxy™ Tool Shield

A cost effective, sturdy holder to protect your tools, bags, and body. Accepts many sharp or edged tools (a chisel, knife, or a diagonal cutter) and clips onto most bags or even a pants pocket. Also holds one round pencil. Measures 2.6"W x 1.6"D x 6"H

5047 - Tape & Knife Holder

Compact combination tool holder keeps utility knife, 2 pencils and a 35' tape or 25' FatMax®. It also serves as an excellent holder for chalk lines. Compact solution for small jobs & finish work.

Tool Belt Sizing

Place your existing tool belt in a straight line and measure from the end of the buckle to the most commonly used hole. Select the belt size (by mid point) that is closest to your measurement.

Approximate tool belt size by adding 4" to your pant waist size.

Size	Mid Range	Overall Length
Small	34"	41½"
Medium	37"	44"
Large	41"	48"
X-Large	45"	52"
XX-Large	49"	56"
XXX-Large*	53"	61½"

*XXXL Not available in all models
